PROFESSIONAL SUMMARY

Dedicated Full Stack Developer with 2 years of experience designing, developing, and deploying highly responsive web and cross-platform mobile applications. Proficient in the MERN stack (MongoDB, Express.js, React.js, Node.js) and Next.js. Adept at engineering scalable frontend architectures, building reusable UI components, and integrating robust REST APIs. Proven track record of operating within Agile environments to deliver user-focused, high-performance software solutions.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend Frameworks:	React.js, Next.js, React Native, Responsive Design
Backend & Databases:	Node.js, Express.js, MongoDB, MongoDB Atlas
Cloud & Deployment:	AWS, CI/CD, Vercel, Render
State Management:	Redux, Context API
Tools & Technologies:	REST APIs, JWT, Git, GitHub, Postman, Figma, VS Code

WORK EXPERIENCE

Interioverse Design Pvt Ltd

June 2025 – Present

Frontend Developer

- **Admin Dashboard (Next.js):** Developed and deployed a dynamic administrative dashboard utilizing Next.js to actively monitor user registrations, engagement metrics, and critical business data.
- Engineered a library of reusable UI components for data tables, analytical cards, and forms, reducing code redundancy and significantly accelerating future feature delivery.
- Integrated complex REST APIs to facilitate real-time application data visualization, collaborating closely with backend engineers to guarantee secure and scalable data pipelines.
- **Project Management App (React Native):** Built a comprehensive cross-platform mobile application using React Native, executing core features including task management and real-time updates.
- Architected and implemented a frictionless user onboarding flow incorporating OTP verification, enhancing application security and user retention.
- Operated within an Agile framework, leading daily stand-ups and sprint planning sessions while utilizing Git/GitHub for version control and translating Figma wireframes into pixel-perfect screens.

PROJECTS

Portfolio Recruiter Chatbot

Personal Project

Full Stack Web Application (Node.js, Express.js, MongoDB Atlas)

- Developed a recruiter-focused chatbot to provide instant, automated information regarding professional skills, work experience, projects, and contact details.
- Built robust REST APIs utilizing Node.js and Express.js, seamlessly integrating with MongoDB Atlas for secure data management.

- Implemented intelligent keyword-based response matching and engineered tracking mechanisms to analyze and manage recruiter interactions.
- Successfully deployed the frontend interface on Vercel and configured the backend for production on Render.
- Designed a highly responsive UI ensuring an optimal user experience across both desktop and mobile devices.

Smart Kirani Application

Personal Project

Mobile App Developer (React Native, Node.js, MongoDB)

- Conceptualized, designed, and developed a comprehensive mobile application aimed at digitizing day-to-step operations for local grocery (kirana) stores.
- Architected secure, multi-role user flows providing distinct navigational structures and access privileges for customers, shop owners, and delivery personnel.
- Programmed core eCommerce functionalities, including dynamic product cataloging, robust cart state management, and streamlined order processing pipelines.

EDUCATION

Visvesvaraya Technological University, Belagavi

2021 – 2025

Bachelor of Engineering in Electronics & Communication (ECE)

Govt. Engineering College, Haveri
